What is this product?

Type

The product is a share class of the sub-fund Thematica - Future Mobility, which is part of the Thematica (the "umbrella fund"), an open-ended investment company with variable capital (société d'investissement à capital variable - SICAV) of the umbrella type governed by Part I of the Luxembourg Law of 17 December 2010, as amended (2010 Law), and thus qualifies as a UCITS. The assets and liabilities of all sub-funds are segregated by law.

Term

The sub-fund has no maturity date. Notwithstanding this provision, the sub-fund, in keeping with the articles of association, may be dissolved at any time by resolution of the board of directors.

Objectives

Investment objective

The objective of the sub-fund "Thematica - Future Mobility" is to achieve capital growth by investing primarily in securities of companies that contribute to or benefit from the value chain of electric vehicles. The fund prefers to invest in companies active in exploration and/or extraction (e.g. of lithium, cobalt, graphite and nickel), refining and in the manufacture of batteries and electric vehicles (including electric transport). The sub-fund is actively managed. The composition of the portfolio is determined by the fund manager solely in accordance with the criteria laid down in the investment objectives / the investment policy, is regularly reviewed and, if necessary, adjusted. In connection with any performance fee, the Fund/sub-fund shall be guided by the index "MSCI Global Alternative Energy Index" ("Index"). The sub-fund's investment universe is not limited to the index components. The sub-fund's performance may therefore differ significantly from that of the benchmark index.

Investment policy

In principle, the sub-fund may invest in cash, equities, bonds, money market instruments, derivatives, target funds and fixed-term deposits. When purchasing shares, the fund has the option to purchase eligible Chinese A-shares through the Shanghai and Shenzhen Hong Kong Stock Connect ("SHSC") programme. The use of the SHSC Programme serves as an additional investment opportunity for the fund. At least 51% of the net sub-fund assets will be invested in equities. The sub-fund is able to acquire assets in a foreign currency and may therefore be subject to foreign currency exposure. Detailed information on the aforementioned (and/or further) investment opportunities of the fund can be found in the current sales prospectus.

Dividend policy

The income remains in the fund.

Subscription and redemption

Investors may, in principle, redeem their shares on any banking day in Luxembourg with the exception of 24 and 31 December. The redemption of shares may, in due consideration of investors' interests, be suspended if this proves necessary in exceptional circumstances.

Intended retail investor

The fund is aimed at all types of investors who pursue the goal of asset accumulation or asset optimisation and wish to invest in the long term. They should be able to bear losses up to the amount of the capital invested.

Depository

The depository of the fund is DZ PRIVATBANK S.A., société anonyme, with its registered office at L-1445 Strassen, Luxembourg, 4, rue Thomas Edison.

What are the risks and what could I get in return?

Risk indicator

The risk indicator is based on the assumption that you will hold the product for 5 years.

If you cash in the investment early, the actual risk may differ significantly and you may get back less.
The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 5 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact our capacity to pay you.

Please be aware of currency risk if your reference currency differs from the currency of the product. You may receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Other risks not included in the risk indicator may be materially relevant:

- Liquidity risk
- Operational risks

Please see the sales prospectus for further information.
This product does not include protection against future market developments, so you could lose all or part of the capital invested.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable scenarios shown illustrate the worst, average and best performance of the product and an appropriate benchmark over the last ten years. The markets could develop in an entirely different way in the future.

Recommended holding period:		5 years	
Example Investment:		100,000 SEK	
		If you exit after 1 year	If you exit after 5 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	32,470 SEK	19,590 SEK
	Average return each year	-67.53%	-27.82%
Unfavourable	What you might get back after costs	48,480 SEK	35,740 SEK
	Average return each year	-51.52%	-18.60%
Moderate	What you might get back after costs	103,540 SEK	264,460 SEK
	Average return each year	3.54%	21.47%
Favourable	What you might get back after costs	286,010 SEK	415,270 SEK
	Average return each year	186.01%	32.94%

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: this scenario occurs in the case of an investment between April 2022 and March 2025 with an appropriate benchmark being used for the calculation, since fund data does not exist for the entire history.

Moderate scenario: this scenario occurs in the case of an investment between April 2018 and April 2023 with an appropriate benchmark being used for the calculation, since fund data does not exist for the entire history. Favourable scenario: this scenario occurs in the case of an investment between January 2016 and January 2021 with an appropriate benchmark being used for the calculation, since fund data does not exist for the entire history.

What happens if IPConcept (Luxemburg) S.A., société anonyme is unable to pay out?

The default of IPConcept (Luxemburg) S.A., société anonyme has no direct impact on your payout, as the statutory regulation provides that in the event of the insolvency of IPConcept (Luxemburg) S.A., société anonyme, the special assets do not become part of the insolvency estate, but are maintained independently.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product performs, if applicable. The amounts shown here are illustrations based on an investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- 100,000 SEK will be invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	8,179 SEK	54,113 SEK
Annual cost impact (*)	8.2%	4.6% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 26.1 % before costs and 21.5 % after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	The entry costs amount to 5.00% (front-end load), which corresponds to a deduction of 4.76% of your investment amount. This is the maximum amount that can be withheld from your investment. The financial advisor will inform you about the actual value.	Up to 4,762 SEK
Exit costs	We do not charge an exit fee.	0 SEK
Ongoing costs taken each year		
Management fees and other administrative or operating costs	2.88% of the value of your investment per year. This is an estimate based on actual costs over the last year.	2,879 SEK
Transaction costs	0.24% of the value of your investment per year. This is an estimate of the costs incurred when we buy or sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	238 SEK
Incidental costs taken under specific conditions		
Performance fees (and carried interest)	0.30% of the value of your investment per year. The actual amount depends on how well your investment performs. The above estimate of cumulative cost includes the average of the last five years.	300 SEK

How long should I hold it and can I take money out early?

Due to the risk and return profile, we recommend a holding period of at least 5 years for this product.

You can, however, return the product in compliance with the return modalities stated in the sales prospectus. Early redemption can have a significant impact on the risk and return profile. The redemption may be temporarily suspended if there are circumstances which require a suspension and this is justified taking into account the interests of the investors.

How can I complain?

In case of complaints, you may write to IPConcept (Luxemburg) S.A., société anonyme at the address 4, rue Thomas Edison, L - 1445 Strassen, Luxembourg or send an email to info.lu@ipconcept.com. Further information can also be found on the following website: www.ipconcept.com. Complaints about the person advising on or selling the product may be addressed directly to that person.
