What is this product?

Type

The Product is a share class of the sub-fund Thematica - Renewable Future, which is part of Thematica (the "Umbrella Fund"), an open-ended investment company with variable capital (société d'investissement à capital variable - SICAV) of the umbrella type governed by Part I of the Luxembourg law of December 17, 2010, as amended (2010 Law), and thus qualifies as a UCITS. The assets and liabilities of each sub-fund are legally segregated.

Term

The fund has no maturity date. Notwithstanding this provision, the Fund may be dissolved at any time by the Management Company.

Aim

Investment objective

The sub-fund "Thematica – Renewable Future" seeks capital growth by investing mainly in companies that are focused or will substantially benefit from the energy transition. Areas include but are not limited to, renewable energy, energy efficiency, waste management and other smart technologies that aim to decarbonize industries essential to reach climate targets. The sub-fund is actively managed. The composition of the portfolio is established, regularly reviewed and adjusted where appropriate by the Fund Manager solely in accordance with the criteria set in the investment objectives / investment policy. The sub-fund is not managed using an index as a benchmark.

Investment Policy

In principle, the sub-fund may invest in cash, equities, bonds, money market instruments, derivatives, target funds and fixed-term deposits.

At least 51% of the net sub-fund assets will be invested in equities. The sub-fund is able to acquire assets in a foreign currency and may therefore be subject to foreign currency exposure. Detailed information on the aforementioned (and/or further) investment opportunities of the Fund can be found in the current sales prospectus.

Distribution policy

The income remains in the fund.

Subscription and Redemption

In principle, investors may redeem their shares on any banking day in Luxembourg, with the exception of 24 and 31 December. The redemption of shares may be suspended in extraordinary circumstances if this is deemed necessary in the interests of investors.

Intended retail investor

The fund is aimed at all types of investors who pursue the goal of asset accumulation or asset optimization and want to invest for the long term. You should be able to bear losses up to the amount of the capital invested.

Depository

The Fund's Depository is DZ PRIVATBANK S.A., société anonyme, whose registered office is at 4, rue Thomas Edison, Strassen, Luxembourg.

Further information

The full criteria can be found in the prospectus in the section „Risk profile of the subfund“ Thematica - Renewable Future.

What are the risks and what could I get in return?

Risk Indicator

The risk indicator is based on the assumption that you will hold the product 5 years.

If you cash in the investment early, the actual risk may be significantly different and you may get back less.

The overall risk indicator helps you assess the risk associated with this product compared to other products. It shows how likely you are to lose

money on this product because the markets develop in a certain way or because we are unable to pay you out.

We have classified this product as 5 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact our capacity to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Other risks not included in the risk indicator may be materially relevant:

- Liquidity risk
- Operational risks

For more information, please refer to the prospectus.

This product does not include protection against future market developments, so you could lose all or part of the invested capital.

Performance Scenarios

The figures quoted include all the costs of the product itself, but may not include all the costs you have to pay to your advisor or distributor. It also does not take into account your personal tax situation, which may also affect the amount you end up with.

What you get out of this product in the end depends on the future market development. Future market development is uncertain and cannot be predicted with certainty.

The unfavourable, moderate and favourable scenario shown illustrate the worst, average and best performance of the product and the suitable benchmark over the last 10 years. The markets could develop completely differently in the future.

Recommended holding period:		5 years	
Example Investment:		10,000 SEK	
		If you exit after 1 year	If you exit after 5 years
Scenarios			
Minimum	There is no guaranteed minimum return. You could lose all or part of the invested capital.		
Stress	What you might get back after costs	480 SEK	380 SEK
	Average return each year	-95.20%	-48.01%
Unfavourable	What you might get back after costs	4,400 SEK	3,860 SEK
	Average return each year	-56.00%	-17.34%
Moderate	What you might get back after costs	9,570 SEK	7,090 SEK
	Average return each year	-4.30%	-6.65%
Favourable	What you might get back after costs	16,780 SEK	12,160 SEK
	Average return each year	67.80%	3.99%

The stress scenario shows what you could get back under extreme market conditions.

Unfavourable scenario: This scenario occurred for an investment between October 2015 and October 2020.

Moderate scenario: This scenario occurred with an investment between July 2014 and July 2019.

Favourable scenario: This scenario occurred with an investment between August 2017 and August 2022.

What are the costs?

The person selling or advising you on this product may charge you other costs. If this is the case, this person will inform you of these costs and explain how these costs will affect your investment.

Costs over time

The tables show amounts taken from your investment to cover various types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product performs if applicable. The amounts shown here illustrate an example investment amount and various possible investment periods.

We made the following assumption:

In the first year, you would get back the amount invested (0% annual return). For the other holding periods, we assumed that the product would perform as shown in the moderate scenario.

10 000 SEK would be invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	935 SEK	2,350 SEK
Annual cost impact (*)	9.3%	5.5% each year

(*) This illustrates how costs reduce your return each year during the holding period. For example, it shows that if you exit at the recommended holding period, your average return per year will be -1.1 % before costs and -6.6 % after costs.

We may split a portion of the cost between us and the person who sells you the product to cover the services provided to you. The latter will notify you of the amount if required by applicable laws.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	The entry costs are 5.00% (front-load fee), which corresponds to a deduction of 4.76% of your investment amount. This is the maximum amount that can be retained from your investment. The financial advisor will inform you about the actual value.	Up to 476 SEK
Exit costs	We do not charge an redemption fee for this product.	0 SEK
Ongoing costs taken each year		
Management fees and other administrative or operating costs	2.10% of the value of your asset per year. This is an estimate based on last year's actual costs.	210 SEK
Transaction costs	2.49% of the value of your investment per year. This is an estimate of the costs incurred when we buy or sell the underlying investments for the product. The actual amount depends on how much we buy and sell.	249 SEK
Incidental costs taken under specific conditions		
Performance fees	No performance fee is charged for this product.	0 SEK

How long should I hold it and can I take money out early?

Due to the risk and return profile, we recommend a holding period for this fund of at least 5 years.

You may, however, redeem the fund by following the redemption procedures outlined in the prospectus. Early redemption may significantly affect the risk and return profile. Redemption may be temporarily suspended if circumstances exist that require a suspension and this is justified taking into account the interests of the investors.

How can I complain?
